Microsoft Dynamics GP

Stop exporting data from Smartlists to Excel. Learn how to set up a connection or work with an existing connection so data is pulled directly from your GP database to Excel.

Quick Tip Tuesday

Smartlists

For all the SmartList users out there, here is a quick tip to make your life a lot easier. Using the SmartList Options window allows you to modify your default SmartLists so they appear with your desired default columns.

Exchange Server 2010 (all editions) Windows 7 and Server 2008 are near End of Life

On January 14, 2020, support for Exchange Server 2010 (all editions) Windows 7, Windows Server 2008, 2008 R2 and Small Business Server 2011 will end. That means the end of regular security updates.

We're here to help you migrate to current versions for greater security, performance and innovation.
